

Cinema For All is dedicated to helping volunteers bring film to their communities. As the national organisation for community cinema development and support, we truly believe that all means all - all people should have the access to the cinema they want to see, wherever they are. A shared cinema experience can be magical, and has the ability to impact and transform communities in a way few other art forms can.

'Seaford Community Cinema has widened our horizon and sensibilities. This 'transplant' has revitalised us, and raised our expectation of developments. If Seaford Community Cinema ceased, our community's heart would beat slower.' **A Seaford Community Cinema audience member.**

Cinema For All is also passionate about film discovery - the sharing of cinema through film education in a way that deepens audience engagement with what is being projected onto the big screen. With that in mind, we have created a series of film discovery materials to help you expand your film education offering to your audience. These materials are aimed at groups that have not yet experimented with film education activities, but can be used by anyone wishing to introduce group discussions, guest speakers/ audience Q&As or film presentations to their activities.

The Film Discovery 101 pack comprises of a series of help-sheets designed to help you experiment with film education through 3 key activities:

- holding a post-film discussion
- inviting a guest speaker/ conducting a Q&A
- creating a film discovery presentation (coming soon)

In addition, the Film Discovery 101 pack includes 6 fact-sheets surrounding a menu of films that can help you get started:
